

EHL PROFILES

SINCE 1993

We have an international production and distribution network:

30 YEARS OF EXPERIENCE

PRESENCE IN 20+ COUNTRIES

Our most important values are flexibility and finding solutions for the customer. Our core values are to be a reliable and open partner for our customers. To achieve this, we offer a high-quality product, effective communication, adherence to agreements, and fast delivery. Just as we care for our customers, we also care for our employees.

Us
History
Products
Contacts

Among the largest wooden moulding producers in Europe, EHL Profiles Group manufactures premium-quality wooden mouldings in Estonia, Norway, Poland, and Sweden for the global market. EHL Profiles Group is owned by Pomona Gruppen AB – a family-run company since 1986. For us, stability is a core value – not just in terms of balance sheets and strategies – but also in leadership. We have an international production and distribution network.

**Eesti
Höövelliist OÜ**
is founded
1993

2001

The new owner of
the company is the
Swedish group
Pomona-gruppen AB.

2008

Furniture
industry Eerung
AS is merged
with the
company.

2022

The new brand
will be EHL
PROFILES.

EHL PROFILES

2011

The Swedish
subsidiary
EHL Prolist
AB is
established.

2011

The Swedish
production
company Prolist
Nordic AB is
acquired.

2021

The Swedish
company
Grimslöv Trä
& List AB is
acquired.

2014

The Polish
production
company
Drewest is
founded.

2017

The Norwegian
company
Rindalslist AS
is acquired.

2019

The Swedish
production
company Prolist
Nordic AB is
acquired.

Skirting Boards

Skirting is the board that runs around the room along the floor and at the bottom of a wall. A well-chosen skirting board will not only cover the dilatation gap but also provide a nice visual for the room.

Architraves

Architrave is the frame that borders around a door or window, creating a harmonious overall impression. Architraves can also be used as cover moldings - create your own favorite pattern on the wall. Some profiles of the architraves allow them to be used as skirting boards.

Scotia and Crown Moldings

Scotia has many different uses. They can be used to create soft corners in the inner corners of the room, finish the transition points of different materials, cover the gap without removing the skirting or use as a crown molding.

Angles

Angles are used to protect the external corners of walls. They can also be used to cover unevenness between different finishes.

-
- A dark brown leather chair with a high back and armrests is positioned against a white paneled wall. A plaid blanket with a pattern of grey, white, and yellow is draped over the left side of the chair. A dark brown leather bag with two large metal rings is placed on the dark grey tiled floor next to the chair. To the left of the chair is a white door with a wooden baseboard. The scene is lit with warm, soft light, creating a cozy atmosphere.

Stripwood

The smooth, non-profiled surface of the stripwood gives them a wide range of use. They can be used both as floor and interior corner moldings and can also cover the differences at the junction of the two finishes. In interior design, it is possible to create unique solutions for the ceiling and wall with stripwood or use them as a room divider.

Beads and Quadrants

Beads and quadrants are used to fix window and door glass. They can also be used to create soft corners and finish the transition points of different materials in the inner corners of the room.

Decorative and Cover Moldings

These are used to hide the joints of surfaces with different finishes, and they can also be used as door, floor, or ceiling strips. In addition to the practical purpose, decorative and cover moldings can be used as decorative elements in room design.

Dowels

Dowels have many uses, from practical to decorative. They are mostly used as hangers for items such as clothing, curtain rods, table legs, rake arms, flag poles, or handrails.

Decorative Blocks

Decorative blocks make it easy to install door and floor moldings and offer the opportunity to creatively combine moldings of different sizes. They add a unique look to the room, being ideal for connecting interior and exterior corners, for smooth transitions between door and skirting boards, and for precisely connecting the corners of door moldings.

Decorative Panels

With decorative panels, it is possible to create an amazing design for the room, using them on the wall or ceiling, in a few panels or along the entire wall/ceiling.

The range of the material and finishing of the strips is wide. The most common materials are pine in various treatments and foil-wrapped MDF strips.

To find the correct product on the shelves, we branded the products as follows:

MELLOW: HDF backplate

WHISPER: FELT backplate (acoustic panel)

Mellow

Our panels are based on the different materials of the backplate, which will give one or the other an advantage

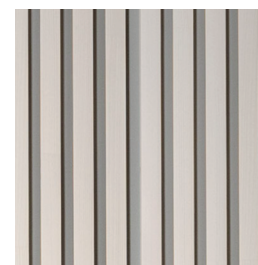

13x30x2400

Crown Mouldings “BILDIS”

The multifunctional ceiling molding connects the wall and the ceiling, giving the room solid frames and a unique look. In Bildis, the milled groove on the ceiling moldings allows you to hang various objects on the walls without damaging the wall.

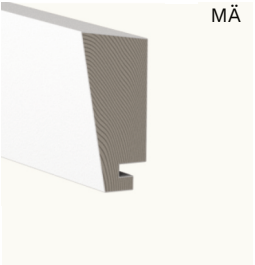

BILDIS series hanging hooks are not included in the set and are available separately.
